📍 Penticton, BC Canada

INTERIOR DESIGNER- BID, BN

PROFESSIONAL PROFILE

An emerging design professional and Bachelor of Interior Design candidate, guided by human-centered design principles, a deep respect for how space shapes behaviour, and a commitment to sustainable, inclusive practice. Grounded in a background in healthcare that taught me to anticipate what people need before they ask for it to design spaces that make people feel they belong.

CORE QUALIFICATIONS

- Space Planning & Interior Concepts
- AutoCAD, SketchUp & Revit
- Adobe Creative Suite
- 3D Modeling & Rendering
- Design Research &FFE Selection
- Presentation & Visual Communication
- Human-Centered & Sustainable Design
- Concept Development & Design Thinking
- Team Collaboration & Studio Work
- Time Management & Project Coordination

EDUCATION AND PROFESSIONAL DEVELOPMENT

Bachelor in Interior Design | Yorkville University | Graduated 2026

Portfolio: https://landfcreative.github.io/Portfolio/
Relevant Projects:

- *Health Care Studio Project*: Developed a holistic medical office environment by creating medical spaces, and neuro-inclusive wellness features that support patient mental health and optimal employee work flow.
- *Restaurant Studio Project:* Designed a bespoke restaurant concept incorporating biophilic design principles, sustainable materials, and accessibility considerations to enhance dinner experience and overall functionality for employees.
- *Workplace Design Project:* Developed a collaborative office environment integrating flexible work spaces, wellness-focused features, and branding strategies to support productivity and employee engagement.
- *Residential Design Project:* Produced a comprehensive residential redesign including floor plans, elevations, rendered perspectives, and material boards tailored to client lifestyle needs and spatial requirements.
- *Hospitality Studio Project:* Collaborated on a team of four to design a boutique hotel concept incorporating luxury ideologies, biophilic design principles, sustainable materials, and accessibility considerations to enhance a wellness experience and apply adaptive reuse principles

Industrial Design Studies | Emily Carr University | Vancouver, BC | Incomplete 2018–2021

Relevant Focus Areas: Product Design, Furniture Design, Human-Centred Design, Ergonomics, Materials & Manufacturing, Prototyping
Relevant Projects:

- Product Design Studio: Create a Chair for a neuro inclusive office that provided erogomic support
- Textile Design Studio: Ergonomic studies and backpack design

INTERIOR DESIGNER- BID, BN

PROFESSIONAL EXPERIENCE

Freelance Design Projects | Various, Canada | 2024 - current

- Designed conceptual interior solutions for various residential spaces, tailoring layouts, finishes, and color palettes to client needs, resulting in cohesive and functional design outcomes.
- Developed mood boards, 3D renderings, and presentation packages for interior design projects, using Adobe Creative Suite and SketchUp, effectively communicating concepts and improving client approval efficiency.
- Applied human-centered design principles to balance functionality, aesthetics, and spatial constraints, enhancing usability and overall client satisfaction.
- Managed multiple interior design projects, coordinating timelines, client communication, and revisions, ensuring on-time delivery and high client

Registered Nurse | Alberta & British Columbia | 2012–2024

Delivered client-centred care within multidisciplinary healthcare environments while developing expertise in accessibility, wellness, evidence-based practice, and collaborative problem-solving.

- Used professional empathetic communication on a daily basis with coworkers, and patients to facilitate patient care delivery. This resulted in optimal delivery of care, clearer common goals, and favorable health outcomes.
- Worked in a team oriented environment to provide timely, critical care to patients resulting in completion of necessary tasks.
- To provide the best care possible, it was necessary to think critically and deliver alternative solutions and ideas on how to help the patients and doctors reach their goals of care and care delivery.
- Throughout the working day, use the ability to organize and adapt to a constantly changing flow of work and patient needs resulting in quick priority reorganization, and optimal care in a timely manner.

PROFESSIONAL CERTIFICATES

Graphic Design Diploma | Toronto Film School | 2002
Gained experience in graphic design industry and programs.

VOLUNTEER & LEADERSHIP

Penticton Arts Council | Board Member | 2024–2025
Supported community arts programming, event planning, and organizational development.

Calgary Gardening Coop | Board Member and Area Leader | 2015-2018
Contributed to the health and growth of South Calgary Community Garden by attending board meetings, organizing events, and promoting the organization and craft of gardening.
